

Personal Information:

Name: **Lukas Bunat**
Address: **Prague, Czech Republic**
E-mail: **lukas.bunat@gmail.com**
Phone number: **[CZE] +420 731 277 533**
Website: **www.lukasbunat.net**
LinkedIn: **www.linkedin.com/in/lukasbunat/**

Personal Statement:

I have had gradually studied at four different universities in Europe and Asia. In recent years have shaped my opinions, and developed my passions. I have gained many skills and abilities during this period too. I love traveling, especially having cross-culture experiences and listening to/learning about new and an unknown. Apart of that, I regularly play sports such as volleyball or floorball.

I have been told, I am good at finding clever solutions even if they are not obvious, yet still reflecting and implementing suggestions from others. I believe, my technically analytical thinking helps me in these cases. On top of that, I steadfastly hard-working towards my dreams and goals. But I have learnt, if you can't learn new things, cooperate in a team or communicate with others, no matter which country they are from, you will hardly achieve big things. I am the one, who always wants to lead others by using my own creativity. I want affect others in a positive way by relating to them.

Education:
